**The Perfect Sewing Chair Information**

**FEATURES:** The new collection of chairs is offered through Sew Fresh Studio in partnership with Sew-Ergo Advantage. As one of the inventors of the Perfect Sewing Chair, the Tilt'able and Sure Foot Ergonomic Sewing Station Units in 1997, I wanted the new company to keep our high standards. These standards were kept and more were added to improve the Perfect Sewing Chair, such as more (70) beautiful fabrics to choose from, a sliding seat that will support a longer/shorter hip to knee length and an extra lumbar support option.

You will love this chair! We will match any advertised price so let us know how you are interested and come in to it in one to see how good it feels and see the lovely fabric selections. While you are here let us give you a complimentary ergonomic sewing room personalized evaluation!

We look forward to helping you feel better while you create at your sewing machine and computer.

Chairs:

The trademarked Perfect Sewing Chairs are rated to hold 250 pounds unless otherwise noted and are manufactured using components and fabrics made in the USA and Canada. All models come with upholstered seat and back cushions that are made of double-thick resilient foam. An excellent lumbar curve is built into the back cushion. The seat cushion is waterfall shaped rather than squared so that blood circulation behind the knees will not be compromised.

The Standard and Premium models are on a 5 inch cylinder base and have five adjustable features: Seat Height Up/Down, Seat Back Up/Down, Seat Back Angle Forward/Back, Seat Glide Forward/Back, and Seat Tilt Angle Forward/Back.

Fabrics:

The chairs/stools are upholstered in Grade 1 fabrics and come with casters rated for commercial carpet - work OK on short plush and Berber. The black plastic back panel is recommended for use in tight spaces where objects may be bumped. Models with an upholstered seat back panel do not have a guard. Fabrics can be upgraded (grades 2-4) range at \$20-\$40 for different textures, colors and patterns as well as double rub ratings.

Free Delivery:

All chairs are Shipped Free to your home if located in the 48 contiguous states. Generally the chairs are delivered within 18 days but Grade 4 fabrics take at least a week or so longer.

**WARRANTY:** 12 years on the pneumatic cylinder, mechanisms, frame and base. Five years on upholstery, levers, casters and arms. No warranty on upholstered backs - bumping into objects (walls, cabinets, tables, desks, etc.) whether intentional or not causes wear of fabric over time and is considered normal use and unavoidable. Any damage which occurs during the shipping process results in immediate replacement.

Please call our studio to let us know you received your Perfect Sewing Chair and that you were delighted.

Thank you, Nora McCray
